Domanda 43

Il computer è infettato da malware, come devo procedere per risolvere il problema?

Risposta 45

The image shows a screenshot of a Microsoft Community forum post. The post is titled "Domanda" (Question) and has 43 answers. The question is "Il computer è infettato da malware, come devo procedere per risolvere il problema?" (The computer is infected with malware, how do I proceed to solve the problem?). Below the question, there is a section for "Risposta" (Answer) with 45 answers. The first answer is from a user named "Microsoft Support" and is titled "Ciao! Come risolvi se il computer è affetto da virus?". The answer text is partially visible and discusses steps to take if a computer is infected with malware, such as disconnecting from the internet, running a full system scan, and using a malware removal tool.

command. Insert multimedia into flipcharts—from images to animations to websites to videos. Use the Clock and Timer to keep students on point and add excitement to activities. Focus students' attention on something specific using the Spotlight tool. Expose information gradually with the Revealer tool and add intrigue to any lesson. Interact with resources, documents, websites, and more using Annotation tools. Dive into the shared free resource pack and discover imaginative ways to spice up lessons. Save flipcharts and other resources as a PDF for easy student sharing. Use the Dice Roller to help with math instruction or to choose students at random. Change the rotation point of any object on a flipchart with the XY Origin tool. Use the interactive ruler, protractor, compass, and calculator to make math more engaging. Cloud-based teaching software for any remote or hybrid learning environment. We know your investment takes careful thought and planning. We're here to help. TopicDescriptionLinkCreating Your First FlipChart Basic demonstration of how to add pages and backgrounds. Getting Started with Flipcharts Hyperlinking Adding hyperlinks from objects in a lesson to web resources or files on your computer. Hyperlinking Images, Clipart, and Multimedia How to find images and other multimedia to add to your flipcharts. Even covers how to import images from your computer. Resource Browser Labels and Containers How to make a label appear when mouse rolls over and how to make containers that accept and reject objects. Labels and Containers Magic Erasers: Creating Lessons Learn how to create more drama and interest in your lessons by using these tools and strategies. Magic Ink/Magic Erasers Magic Erasers: Downloading a Resource Pack from Promethean Planet Downloading the Magic Erasers Resource Pack and locating the downloaded file. Downloading Resource Packs Primary View for Elementary Describes how to switch to Primary view and how to use the pen and resource browsers. Primary View Resource Browser Describes resources, how to add to resources, and how to organize resources with folders. Resource Browser II Tips from Promethean Working with Restrictors, Sounds, Dual Users, Containers, Backgrounds, Animations, and much more.. Promethean Tips Toolbar and Basic Tools Introduction to the toolbar and basic tools such as pen and drawing shapes. Toolbar and Basic Tools Transitions and Page Effects Add zip and zing to your flipcharts by changing the effect when you go from one page to another. Transitions and Page Effects Transparency Using the transparency feature of images to create interactive lessons where the top image can be made to fade out, revealing the image beneath. Transparency Using ActivInspire in Geometry Class A variety of tools are demonstrated to show how ActivInspire can make math instruction more effective. Geometry Showing 13 items Check out these great offers on the ActivPanel Element series! Experience the new Promethean Elements Series by getting your first ActivPanel at 50% off. Discount includes one panel, one stand, computing device and warranty. View Current Offer >>> *Applicable to North America Only In this module, learners will be introduced to basic terminology, tools, navigation, and training support for Promethean ActivInspire software. Completion of this module is expected to take about 20 minutes. 1. View/Download ActivInspire QuickGuide: those attending on-site training, you will find this document in your training materials.2. View Module 1 Tutorials:Click on the play button in the middle of the player window, or bottom left, to view. You may click on the arrows in the bottom right corner of the player to view in full screen mode. When videos are played on a full-size monitor or laptop, resolution is better when viewed within the embedded player. Clicking on the title at the top of the player will take you to the YouTube Web site.This six-minute video provides an overview of an ActivInspire flipchart and basic tools: This five minute tutorial provides an overview of Flipchart navigation and presentation options: 3. Explore Training Resources:DI09 Collaborative Team Portal: Log on to staff Intranet, then 'Collaborative Team Portal' in the right sidebar. Next, click on 'Elementary/Middle School Technology Resources' - content is the same for both at this time. Next, scroll down to section titled 'Training Guides' and click on the link titled 'Promethean and ActivInspire Flipcharts.' When the page re-loads, the content of the 'Training Guides' section will be replaced by Promethean resources linked by the district. Two of the linked resources are highly recommended for getting novice users off to a quick start: ActivInspire Quickguide (Step 1 above, last in the list) and ActivInspire Tutorial (5th one down). Copies of these two resources are available for those attending on-site training sessions.Promethean Planet Web site - User Guides and Documents:
